SANTA LUCE PLANT EXPORTS SARPLAST TECHNOLOGY IN U.S.A.

The supply of over 3,100 meters of pipe DN 2.600- DN 25 PN 10 with Bell & Spigot Lock Joint was successfully completed.

The work is part of a project funded by the state of Texas, which involves the construction of a PET synthesis plant in granules (Jumbo Project) in Corpus Christi.

The customer was satisfied with the work done by Sarplast team, which has followed the various phases of the project, up to the supervision that is still ongoing.

SARPLAST COMPLETES THE PROJECT FOR MITSUBISHI

Santa Luce plant has made the last shipment to complete the supply of more than 2,000 meters of DN 2,000 for the project TGF Expansion in Turkmenistan.

Spools realized at Santa Luce plant for the Jumbo Project of Corpus Christi, Texas

Last shipment for the Mitsubishi Project
